EDUCATION

Nanjing University Sep. 2019 - Present
B.S. in Computer Science
 • GPA: 4.56/5 (91.2/100)
 • Ranking: 7/192 (Top 4%)
Jiangsu, China

RESEARCH EXPERIENCE

UNC Chapel Hill Oct. 2021 - Present
Research Assistant
 • Conduct data cleaning and wrangling on large scale datasets.
 • Complete state-of-the-art data analyses, including DiD and DML.
Chapel Hill, NC

Nanjing University Oct. 2020 - Dec. 2021
Research Apprentice
 • Find a deep learning solution to the detection of road lanes with machine learning methods based on the traditional End-to-End system in Autonomous Driving.
Jiangsu, China

SELECTED PROJECTS

Plants vs. Zombies Mar. 2021 - Jun. 2021
 • It is a Plants vs. Zombies game based on C++ and QT, using the Object Oriented Programming paradigm. There are multiple kinds of zombies and plants displayed in GIF format.

The NEMU Project Sep. 2020 - Feb. 2021
 • NEMU aims to create a simplified i386 simulator. The final product is a simplified operating system that can execute programs with the i386 instruction set.

An Educational Administration System Mar. 2020
 • It is an C++ based information system with a simple interface that could manage the choice of classes, student numbers and etc. There are different functions for both students and the administrator.

SELECTED HONORS

National Scholarship Dec. 2021
for top 1% students
Ministry of Education, PRC

The Wanglaoji Scholarship Dec. 2020
for top 5% students
Nanjing University

Outstanding Student Nov. 2020
for top 5% students
Nanjing University

SKILLS

Languages C++, C, Python, R, Stata, MATLAB, SQL, Markdown and \LaTeX
Frameworks & Packages Pandas, PyTorch

ENGLISH PROFICIENCY

GRE 331+4.0 IELTS 7.5
